Events

Parthenium Awareness Week

16-22 August 2022

The Faculty of Agriculture Sciences, Bhagwant University, Ajmer have celebrating Parthenium Awareness Week to every year. Parthenium hysterophorus commonly known as carrot weed, white top or congress grass in India. It is most popularly known as "Gajar Ghas" due to its appearance like carrot plant. The origin of Parthenium is from Mexico, America, Trinidad and Argentina. After noticeable occurrence of Parthenium in Pune (Maharashtra) in 1956, it has spread like a wild fire throughout India.

Initially Parthenium was a problem in waste and vacant land but now it has become a problematic weed in crops also. The increase of Parthenium infestation in crop area in recent past is alarming and the students Mahendra, Aditya, Sachin, Salim, Arshiya, Shanti and Manisha of the university performed vital role for Successful Programme.
