DEAR COLLEAGUES,

It gives us immense pleasure to invite and welcome you to participate in **Two Days National e-Seminar on “Multidisciplinary Perspectives in Rural India For Improving Employability ”** organized by the **VENTEL Cell, Mahatma Gandhi National Council of Rural Education, Department of Higher Education, Ministry of Education, Government of India, at Bhagwant University, Ajmer, Rajasthan** and your esteem participation is cordially solicited.

EMPLOYMENT INCREASING IN RURAL INDIA

The sharp and sudden increase in employment in September 2021 was largely a rural story. In all the major labour market metrics, it is rural India that shows big improvements. Labour conditions improved in urban India also but not as much as they did in rural India. The addition of salaried jobs was essentially in urban India. Nearly 60 per cent of the total 6.9 million salaried jobs added in September were in urban India. While rural India added 2.8 million, urban India added 4.2 million salaried jobs. But, it is likely that these salaried jobs in urban India may not be of good quality. The manufacturing sector saw a fall in employment in urban India in September. And, a large part of the increase in services sector jobs was among non-professional personal services. There were increases in education and in travel and tourism but these were small. The big story of job increases in September 2021 is therefore of rural India.

ABOUT MGNCRE

Mahatma Gandhi National Council of Rural Education under the Ministry of Human Resource Development, in Government of India strives to promote resilient rural India through Higher Education interventions. MGNCRE designs, develops and promotes curriculum inputs for higher education programmes offered by Universities and Autonomous Institutions in India.
